**The Pronouns in " Sultan alnaum and Zarqaa Alyamamah
novel for Munes Alrazaz – Linguistic study**

Nayif Mohammad Al-Nijadat

Abstract

This is a Linguistic research of Pronouns in " Sultan alnaum and Zarqaa Alyamamah novel for Munes Alrazaz . The research consists of two parts : The first on The oritical that over looks Pronouns in Arab language according to their kinds , their indications in language structure . The second parts is practical depending on showing the Skelton (main points) of the novel, and chosen texts that include different pronouns to be applied on the theoretical part.

The study of pronouns usage in language structure according to indication and structure might reveals long-term Horizons that could not be seen for those who skim the text.
